EURHOPE - EU AS A SOLIDARITY'S HOUSE
FOR MINORS OUT OF HOME

Newsletter n°9

Edited by INDEPCIE

Dear readers,

Now that you already know the Italian and Greek organisations behind the EURHOPE project, we want to introduce you to the two Spanish organisations: INDEPCIE and CÓRDOBA ACOGE.

INDEPCIE (Institute for the Personal Development, Entrepreneurship, Coaching and Emotional Intelligence) is a training company founded in 2018 focused in the attitudinal training and the improvement of human performance. The company works with clients with the aim of increasing their results both in personal or professional areas, developing techniques and strategies in the areas of coaching, Emotional Intelligence, soft skills and Neuro Linguistic Programming (NLP).

Based on this, we apply our training programmes to people, either individually or as part of their teams or organisations, seeking their maximum development and the improvement of their results in any field.

In addition, INDEPCIE works in the development of international projects within the framework of the EU Erasmus+ programme, researching and developing applications of coaching and EI in areas such as employment, entrepreneurship and adult education.

Set up as a cooperative, INDEPCIE is part of FAECTA, the Andalusian Federation of Worker Cooperative Enterprises, which brings together 440 companies throughout Andalusia, cooperating and actively participating in all the actions and activities it promotes for the development of social economy enterprises.

CORDOBA ACOGE is a non-profit association that works for and for a transformation towards a social model of solidarity in which people from different cultures coexist.

They are an open entity made up of women and men, from here and there, who join forces in order to offer the best possible welcome to all those people who, from anywhere in the world, knock on the door of the society we share and in which we aspire to live together in peace, enriching ourselves through mutual cultural exchange.

Cordoba Acoge has been declared a Public Utility Association in Spain and fulfils all the requirements for this. This association works, especially with migrants, from different areas of work to collaborate with the community. The most important areas are: labour, legal, social, equal treatment, youth and children, women, housing, international protection, communication and volunteering and awareness-raising.

Córdoba Acoge was born in 1991 and belongs to the National Federation **RED ACOGE**.

As part of the EURHOPE project, both organisations are responsible for developing the educational content and implementing the training in Spain, both for the Training Toolkit, available here: <https://eurhopeproject.eu/training-toolkit/>, as well as in the framework of the forthcoming Methodological Vademeum.

The partners continue to meet on a regular basis to further improve knowledge and exposure to socio-political information regarding the EU for minors out of home and promote chances to take part in discussions and actions regarding European issues and themes!

Don't miss our latest news in the next newsletter!
