Dear reader,

In this 6th Newsletter of the EURHOPE project you will find interesting news about our latest activities.

We have now reached the important part of training materials development and the preparation for the actual training of minors in all partner countries.

More specifically, the consortium has agreed on the development of materials under four main areas, namely Life skills, digital skills, socio-political knowledge and EU training, that cover 36 hours in total.

Moreover, the consortium has decided to prepare the trainers' methodology, to assist the volunteer trainers to teach the modules in an inspiring and effective way.

The specific modules that the partners have agreed upon and worked on are:

## Life Skills

Module 1: Personal Area

Module 2: Social Area

Module 3: Critical and Creative Thinking

## Digital Skills

Module 1: Information and Data  
Literacy

Module 2: Communication and  
Collaboration

Module 3: Security

## Socio-political Knowledge

Module 1: The European countries

Module 2: The European political  
structure

Module 3: European regulations

Module 4: Values, duties and rights of  
European citizens

Module 5: The profile of the global  
citizen

Module 6: European projects and  
opportunities for citizens

## EU Training

Module 1: The European Union  
institutional framework

Module 2: Values and objectives of  
the EU

Module 3: Key policies and  
programs of the EU

Module 4: Promoting European  
citizenship and participation

Project partners used their expertise to prepare high quality, stimulating and interactive training materials, which included videos, games, quizzes and activities, taking into consideration the specificities of the target group.

All materials were prepared in English and then localized for each partner country, to reflect local differences and priorities.

On 16 October, a train-the-trainer course was organized, to guide volunteer trainers from all partner countries into the first part of the material, life skills, so that training

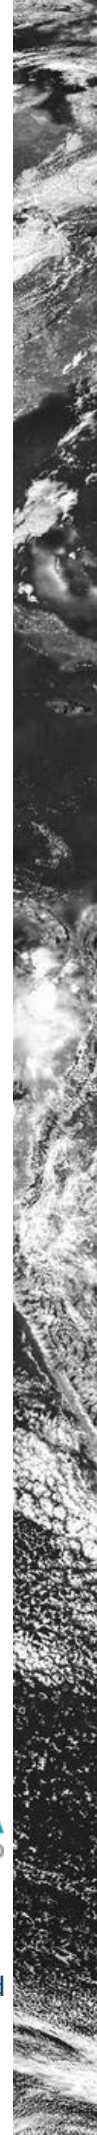

of the minors can start right away.

Don't miss our next newsletter with news from the actual training activities!
