EURHOPE - EU AS A SOLIDARITY'S HOUSE
FOR MINORS OUT OF HOME

Newsletter n°26

Edited by Metacometa APS

Welcome to this new edition of the EURHOPE project newsletter.

After two extraordinary years, EURHOPE—the European project that placed the voices, ideas, and futures of children living outside their family homes at the heart of everything—has concluded. From Córdoba to Castellammare di Stabia, and via Campobasso, the project's results were shared with local communities, reflecting the perspectives of the young people and the adults who supported them.

The young participants took center stage in their own projects; they told their stories, shared their experiences, performed, and described their work. While this marks the formal end of operational activities, the benefits will endure through channels that remain active within each young person's community and environment.

It was a journey that fostered new friendships, relationships, and skills valuable for the future. Across all partner countries, a shared realization emerged: their voices truly matter.

Because Europe is close to them and wants to listen!

A huge thank you goes to all the partners, collaborators, and the European Union for supporting this bold journey—one that turned individual challenges into a starting point for a fresh beginning together.

The project's social media channels played a significant role; following the live stream of the final in-person partner event last May, there was a notable increase in followers and people interested in the project's dissemination activities.

Thank you to everyone who made this wonderful journey of active citizenship possible! 🌟 We are confident that sharing content across social media and dedicated platforms (EPALE and eTwinning) will allow even more interested individuals to access project information and the best practices developed through this initiative!
